JUNIOR WINTER TRAINING PROGRAM

All 2013 Spring Eagle players are **REQUIRED** to attend the “Senior Winter Training Program”

Program Details...

The Senior Winter Training Program is tailored specifically for players on the 60/90 field.

As usual with all of PBI's specialty training programs players will intensively work on their defensive and hitting skills. But what makes this program unique is that we will extensively key in on the fundamental skills needed for the 60/90 game. All the baserunning aspects such as pitchers, 1Bmen & MIF holding runners on, bunt defenses, 1st & 3rd defense, baserunning from an offensive prospective and so on...

Throughout the month of February, the main focus of the workouts will be live competition and game situations. Each hitter will total approximately 20 – 30 live at-bats while each pitcher will throw around 10 innings of live game play.

- ☞ Pitchers will throw *live to hitters*
- ☞ Hitters will take *live at-bats*
- ☞ Catchers will catch live & throw *full distance* to all bases
- ☞ Infielders field live ground balls & make *full distance* throws
- ☞ Position players will base-run in *live game situations*
- ☞ All players will work on live defensive situations such as bunt defenses, run-downs & Pick-off's.

JRWTP IS MANDATORY FOR ALL EAGLE PLAYERS

***Players enter the program according to their position...
If you play two positions you will workout at your primary position and secondary position rotating every other week.***

PITCHERS TRAINING DETAILS

All pitchers will be put on a progressive throwing program consisting of long toss, short range, flat ground and mound work. They will learn to develop “command” of their fastball (4-seam, 2-seam) regardless of how hard they throw. We will develop a change- up that feels good to them and a breaking pitch if they are physically capable of throwing one consistently. In February pitchers will compete in 20– 25 innings of live game situations. Pitchers will learn how to throw bullpens properly as well as developing an in- season throwing routine. Pitching strategy will be a main focus as well. The pitchers will be put on a full shoulder and elbow maintenance program and learn how to care for their arm throughout the season. Defensively, we will improve quickness and awareness of pick- off moves to all bases as well as overall pitchers fielding practice (PFP). Offensively, pitchers that hit will hit.

CATCHERS TRAINING DETAILS

All catchers will be put on a progressive throwing program. The health and strength of a catchers' arm is just as important as the pitchers'. Catchers will work on all the physical and mental skills required to be proficient behind the “dish”. Areas of concentration are: Receiving, blocking, throwing to all bases, pick- off throws, fielding bunts, “plays at the plate,” tags, double plays, 1st & 3rd responsibilities, and run- downs. Throughout the program catchers will be working very closely with their battery mates, the pitchers. Classifying hitters, understanding pitchers and calling a game will be discussed. Catchers will not only learn and develop the physical skills needed to be a good catcher, but the mental aspects of how to control the game, the team, and be a leader on the field will be enhanced. As a catcher your priority is defense. Making your pitcher look good and keeping your team “in the game” is your job. There are many aspects to the position that need to be mastered. Offensively, catchers will work with our hitting instructors + practice their base- running.

INFIELDERS TRAINING DETAILS

Infielders will be put on a progressive throwing program to develop arm strength and health. During the course of a game infielders need to execute throws from a wide variety of arm angles and body positions. Each position on the infield will work on the proper mechanics of these throws, and learn how to treat every throw “with a purpose”. 1st & 3rd basemen, and middle infielders(2B/SS) will work on their position specific skills throughout the program. All infielders will develop a proper approach to all types of ground- balls, specific to their position. This includes routine, backhand, glove side, slow-rollers, high- choppers, short- hops, harder hit balls, and line- drives. Proper footwork, double plays, making tags, relay throws, 1st and 3rd responsibilities, run- downs, bunt defenses, and pick- off plays will all be taught according to position. Offensively, all infielders will work with our hitting instructors + practice their base- running.

OUTFIELDERS TRAINING DETAILS

Outfielders will be put on a progressive throwing program to develop arm strength and health. As an outfielder footwork is “key.” Footwork on all ground and fly- balls must be highly developed. All outfielders will work on routine ground- balls, angles of approach to ground and fly- balls, and getting a strong and accurate throw to the infield quickly. Offensively, all outfielders will work with our hitting instructors + practice their base- running.

HITTERS TRAINING DETAILS

In the 1st 1/3 of the program, hitters will learn and develop hitting skills through tee work & short range drills that focus on mechanics and proper fundamentals for each individual hitter & batting practice (BP). Moving forward; Live BP will be the norm in January, and in February hitters will compete in live situations against the pitchers and catchers.
