EAGLES TRAIN AS A TEAM THRU DEC., JAN. & FEB. IN PBI's...

JUNIOR WINTER TRAINING PROGRAM

JRWTP DETAILS

The Junior Winter Training Program is tailored specifically for players on the 50/70 field. Players enter the program according to their position.

As usual with all of PBI's specialty training programs players will intensively work on their defensive and hitting skills. But what makes this program unique is that we will extensively key in on the fundamental skills needed for the 50/70 game> All the baserunning aspects such as holding runners on, bunt defenses, 1st & 3rd defense, baserunning from an offensive prospective and so on.

GOALS OF THE PROGRAM

- ➔ Prepare players to enter their season at peak performance.
- ➔ Condition players skills, knowledge and execution to top personal performance.
- ➔ Educate players on injury prevention and staying healthy thru the season.

PLAYERS ENTER THE PROGRAM ACCORDING TO THEIR POSITION

If you play two positions... You will workout at you primary and secondary rotating every other workout.

PITCHERS TRAINING DETAILS

All pitchers will be put on a progressive throwing program consisting of long toss, short range, flat ground and mound work. They will learn to develop "command" of their fastball (4-seam, 2-seam) regardless of how hard they throw. We will cultivate a change-up that they will become capable of throwing consistently. In February pitchers will compete in live game situations. Pitchers will learn how to throw bullpens properly as well as developing an in-season throwing routine. Pitching strategy will be a main focus as well. The pitchers will be put on a full shoulder and elbow maintenance program and learn how to care for their arm throughout the season. Defensively, we will learn how to hold runners on, and improve upon quickness and awareness of pick-off moves to all bases as well as overall pitchers fielding practice (PPF). Offensively, pitchers will work with our hitting instructors + practice their base-running.

CATCHERS TRAINING DETAILS

All catchers will be put on a progressive throwing program. The health and strength of a catcher's arm is just as important as the pitchers'. Catchers will work on all the physical and mental skills required to be proficient behind the "dish". Areas of concentration are: Receiving, blocking, throwing to all bases, pick-off throws, fielding bunts, "plays at the plate," tags, double plays, 1st & 3rd responsibilities, and run-downs. Throughout the program catchers will be working very closely with their battery mates, the pitchers. Classifying hitters, understanding pitchers and calling a game will be discussed. Catchers will not only learn and develop the physical skills needed to be a good catcher, but the mental aspects of how to control the game, the team, and be a leader on the field will be enhanced. As a catcher your priority is defense. Making your pitcher look good and keeping your team "in the game" is your job. There are many aspects to the position that need to be mastered. Offensively, catchers will work with our hitting instructors + practice their base-running.

INFIELDERS TRAINING DETAILS

Infielders will be put on a progressive throwing program to develop arm strength and health. During the course of a game infielders need to execute throws from a wide variety of arm angles and body positions. Each position on the infield will work on the proper mechanics of these throws, and learn how to treat every throw "with a purpose". 1st & 3rd basemen, and middle infielders(2B/SS) will work on their position specific skills throughout the program. All infielders will develop a proper approach to all types of ground-balls, specific to their position. This includes routine, backhand, glove side, slow-rollers, high-choppers, short-hops, harder hit balls, and line-drives. Proper footwork, double plays, making tags, relay throws, 1st and 3rd responsibilities, run-downs, bunt defenses, and pick-off plays will all be taught according to position. Offensively, all infielders will work with our hitting instructors + practice their base-running. Offensively, infielders will work with our hitting instructors + practice their base-running.

OUTFIELDERS TRAINING DETAILS

Outfielders will be put on a progressive throwing program to develop arm strength and health. As an outfielder footwork is "key." Footwork on all ground and fly-balls must be highly developed. All outfielders will work on routine ground-balls, angles of approach to ground and fly-balls, and getting a strong and accurate throw to the infield quickly. Offensively, all outfielders will work with our hitting instructors + practice their base-running.

HITTERS TRAINING DETAILS

In the 1st 1/3 of the program, hitters will learn and develop hitting skills through tee work & short range drills that focus on mechanics and proper fundamentals for each individual hitter & batting practice (BP). Moving forward; Live BP will be the norm in January, and in February hitters will compete in live situations vs the pitchers and catchers.
