Pitching Healthy is Presented by PBI and the Baseball Health Network

Why the Youth Pitching Healthy Program?

Due to the epidemic of serious throwing arm injuries throughout the United States, PBI in conjunction with the Baseball Health Network (BHN) have created the "Pitching Healthy" Program.

Industry leading pitching coaches Steve Hayward (Boston Red Sox '93-'94), Artie Lewicki (Current Detroit Tigers), Doug Cinnella (Orioles '86-'87, Expos '88-'89, Mets '90-'93, Yankees '95), Gianni Zayas (Mariners '15), Justin Valdespina (Current Colorado Rockies), and Jack Winters (Current NYU Pitching Coach). Current NY Yankees team physician Dr. Christopher Ahmad oversees all aspects of arm care and health. Keith Cedro, NY Mets Major League Strength Coach ('86-'97) will oversee all aspects of **pitcher specific** strength and conditioning.

This program was developed for the **youth level pitcher**. Pitching Healthy was collectively designed by the Professional Staff of PBI and the Baseball Health Network (BHN), including legendary pitching coaches Leo Mazzone (Atlanta Braves '90-'05)

Through our knowledge, experience, and research, we developed this program to fully prepare pitchers for their upcoming season. From a **progressive throwing regimen**, to a **strength, conditioning, flexibility, and mental training**. Pitching Healthy is guaranteed to improve you overall health and performance on the field.

PBI has been developing winning pitchers for over 20 years. Pitching to win is our ultimate goal.

PROGRAM DETAILS

OVERVIEW... All pitchers will be put on a progressive throwing program which will ensure each pitcher properly "conditions" their throwing arm prior to stepping on the mound. We will also utilize our, **"Pro Mirror" video system** as part of our "Pitching Performance Center". Our goal is to allow each pitcher to find their own natural rhythm and arm slot to maximize their efficiency on the mound.

EVALUATION... Each pitcher will be evaluated by a Cincinnati Reds and Tampa Bay Rays scout to determine their pitching abilities and deficiencies. Pitchers will also be put through a series of **physical assessments** to determine any injury risks, dysfunctions, imbalances, strengths or weaknesses that may be present, as well as create baseline for function and athletic qualities. Pitchers will be evaluated at the beginning, mid point and at the conclusion of the program.

PROGRAM STRUCTURE... Each session will begin with a warm-up and movement prep. Followed by a Pitching Specific, Functional Strength, Conditioning and/or Drill work stations. We will conclude every session with a cool down and discussion on the mental game of baseball.

The PHP will meet on Wednesday's and Saturday's from December thru mid March.
